

Boil Water Rescind Notice
10-12-2023

From the intersection of VZ County Road 3917 and FM 2965, going south (towards Interstate 20), Customers living on FM 2965

On Wednesday, October 11, 2023, the Texas Commission on Environmental Quality (TCEQ) required our public water system MacBee Special Utility District, PWS ID #2340012, to issue a Boil Water Notice (BWN) for the Plant C Pressure Plain area-see above to inform our customers that due to the distribution pressure dropping below 20 PSI, or an interruption in service, water from our system must be boiled before consumption.

Our system has taken the necessary corrective actions to restore adequate pressure, disinfectant levels, and/or bacteriological quality and has provided TCEQ with testing results that indicate that the water no longer requires boiling as of October 12, 2023.

If you have questions, contact the Office at 903-873-2578 or 430-307-5544.

If a customer wishes to reach TCEQ, they may call 512-239-4691
