

Boil Water Rescind Notice

For Customers in the South Pressure Plane who had no or low pressure during the water main repairs on VZCR 3804 on October 2, 2024.

Road Numbers included but were not limited to the following: VZCR 3804, VZCR 3812, VZCR 3813, VZCR 3815, VZCR 3831

On **October 2, 2024**, the Texas Commission on Environmental Quality (TCEQ) required our public water system MacBee Special Utility District, PWS ID #23400012, to issue a Boil Water Notice (BWN) for the above and to inform our customers that due to the distribution pressure dropping below 20 PSI, or an interruption in service, water from our system must be boiled before consumption.

Our system has taken the necessary corrective actions to restore adequate pressure, disinfectant levels, and/or bacteriological quality and has provided TCEQ with testing results that indicate that the water no longer requires boiling as of **October 9, 2024**.

If you have questions, contact the Office at 903-873-2109 or 430-307-5544. If a customer wishes to reach TCEQ, they may call 512-239-4691.
