

Boil Water Rescind Notice
For: NORTH PRESSURE PLANE

Customers experienced low or no water pressure during the 12” water main repair on Tuesday, December 3, 2024.

The VZ County Roads include but are not limited to: VZCR 3812, VZCR 3813, VZCR 3814, VZCR 3815, VZCR 3816, VZCR 3831, VZCR 3834, AND VZCR 3837

On **December 3, 2024**, the Texas Commission on Environmental Quality (TCEQ) required our public water system MacBee Special Utility District, PWS ID #23400012, to issue a Boil Water Notice (BWN) for the above area in the North Pressure Plane and to inform our customers that due to the distribution pressure dropping below 20 PSI, or an interruption in service, water from our system must be boiled before consumption.

Our system has taken the necessary corrective actions to restore adequate pressure, disinfectant levels, and/or bacteriological quality and has provided TCEQ with testing results that indicate that the water no longer requires boiling as of **December 10, 2024**.

If you have questions, contact the Office at 903-873-2109 or 430-307-5544. If a customer wishes to reach TCEQ, they may call 512-239-4691.
