

Boil Water Notice – 12-9-2025

PUBLIC NOTICE TO BOIL WATER For the following:

West of 6040 FM 1651, West FM 3227

**VZCR 2502, VZCR 2503, VZCR 2504, VZCR 2505, VZCR 2409
VZCR 2410, VZCR 2411, VZCR 2412, VZCR 2413, VZCR 2414
VZCR 2423, VZCR 2424**

Any customer in the area above who experiences low to no pressure during the emergency line repair on VZCR 2414

Due to reduced pressure in the distribution system during water leak repairs at VZCR 2414/FM 1651, the VZ County Road listed above experienced a pressure drop below 20 pounds PSI. The Texas Commission on Environmental Quality (TCEQ) has required our water system, MacBee Special Utility District, PWS I.D. # 2340045, to notify customers of the need to boil their water prior to consumption (e.g., washing hands/face, brushing teeth, drinking, etc.). Children, seniors, and individuals with weakened immune systems are particularly vulnerable to harmful bacteria; therefore, all customers should follow these directions.

To ensure the destruction of all harmful bacteria and other microbes, water for drinking, cooking, and making ice should be boiled and then cooled before use. The water should be brought to a vigorous, rolling boil and then boiled for two minutes. In lieu of boiling, you may purchase bottled water or obtain water from a suitable alternative source.

When it is no longer necessary to boil the water, the water system officials will notify you that the water is safe for consumption.

Instructions to discontinue boiling will be issued in the same manner as this notice.

If you have questions concerning this matter, you may contact Office at (903) 873-2109.
