

Boil Water Notice – September 29, 2024

PUBLIC NOTICE TO BOIL WATER For the following:

South 47 to VZCR 2624

VZCR 3414, 3416, 3437

VZCR 3906, 3907, 3908, 3910, 3918,

PR Road 7908, 7911, 7920,

Northside I-20 Service Road from FM47 west to PR RD 7911

(Any customer with low to no water pressure during the leak repair at VZCR 3910 and VZCR 3906 on Sunday, September 29, 2024, will be under this boil water notice.)

Due to a reduced distribution system pressure at the addresses above due to pressure dropping Below 20 pounds PSI, the Texas Commission on Environmental Quality (TCEQ) has required our water system, MacBee Special Utility District, PWS I.D. # 2340012, to notify customers of the need to boil their water prior to consumption (e.g., washing hands/face, brushing teeth, drinking, etc). Children, seniors, and persons with weakened immune systems are particularly vulnerable to harmful bacteria, and all customers should follow these directions.

To ensure the destruction of all harmful bacteria and other microbes, water for drinking, cooking, and making ice should be boiled and cooled prior to use. The water should be brought to a vigorous, rolling boil and then boiled for two minutes. In lieu of boiling, you may purchase bottled water or obtain water from some other suitable source.

When it is no longer necessary to boil the water, the water system officials will notify you that the water is safe for consumption.

Instructions to discontinue boiling will be issued in the same manner as this notice.

If you have questions concerning this matter, you may contact Office at (903) 873-2109.
